

## APPLICATION FOR WATER CONNECTION

To Savary Shores Improvement District:

Pursuant to the regulations applicable to the Water System indicated below,

I/we \_\_\_\_\_, being the Owner, or acting with the Owner's written permission (copy of signed written permission is attached), hereby make application for a Water System connection to the property described below, located on Savary Island BC, and have attached plans and specifications as may be required by the District.

Lot Number \_\_\_\_\_ District Lot \_\_\_\_\_ Plan \_\_\_\_\_

Savary Civic Address \_\_\_\_\_

Billing Address \_\_\_\_\_

Telephone \_\_\_\_\_ Email \_\_\_\_\_

1. **As required, I/we have sent an Interac etransfer or mailed a cheque, for \$1,300.00** as the cost of this connection, to: [administrator@savaryshoreswater.ca](mailto:administrator@savaryshoreswater.ca) or SSID, Box 176, 2785 Vancouver Blvd, Lund BC V0N 2G0.
2. I/we have read, understand, and agree to comply with all of the terms and conditions as set out in the Savary Shores Improvement District Water Use and Distribution Regulation Bylaw 136 available online at <https://savaryshoreswater.ca/bylaws>—covering the specifications for the water connection from the curb stop through the connection drainage box to the dwelling, requirements for turning off curb stops, tampering with the water system, limitations to additional dwelling connections, regulations for consumption and usage of water, and restrictions on commercial water usage.
3. In consideration of the granting of this permit, I/we agree to comply with all bylaws, rules and septic regulations of the Province of BC, the qathet Regional District, and Savary Shores Improvement District in relation to its Water System and to pay such rates, fees, charges and taxes as are specified by the District's applicable Bylaws, and I/we have read, understand and agree to comply with all of the terms and conditions as described in the following information and specification sheets when connecting my/our residence to the water system.
4. I/we understand the following must be completed before the connection may proceed:
  - A site map of the property outlining the location of the residence submitted to the District;
  - The front property line pegs marked with reflective tape;
  - After the District has indicated the location of the curb stop, the owner will dig a 24"-deep ditch from the curb stop to the location of the drainage box next to the residence.
5. I/we understand that water will be supplied only when a connection has been properly installed and inspected as specified by the District.

## **APPLICATION FOR WATER CONNECTION INFORMATION SHEET FOR PROPERTY OWNERS**

**Savary Shores Improvement District is responsible for the following:**

1. Provision of and installation by the District Operator:
  - corporation stop (shut-off/on), at the water main
  - black meter box with extensions and cover, to a minimum of 30" deep
  - curb stop (shut-off/on), at the meter box
  - water meter
  - dual check valve
  - adapter coupling
  - water line stub and coupling device.
2. The District will repair leaks up to and including the check valve.
3. The following connection parts are provided by the District so that the property owner can complete the connection to the drain box at the proposed building site:
  - domestic water line up to a maximum of 200 feet, with steel end-insert.
  - adaptor coupling
  - ball valve (shut-off/on)
  - nipple (4-inch brass extension)
  - tee, for connection to house plumbing and to hose bib
  - hose bib.
4. The District will supply water when the connection has been inspected by the District and determined to be properly installed.

**The property owner is responsible for the following:**

5. Preparation of a ditch with a minimum depth of 24" over the entire length from the meter box to the drain box at the proposed building site.
6. Installation of District-supplied connection parts to the drainbox at the proposed building site.
7. Provision of an 18" x 18" x 24"-deep drainage box with lid.
8. Notifying the administrator (604-414-8448, administrator@savaryshoreswater.ca) when the connection to the drainbox is ready for inspection, and making all needed improvements as requested by the District.
9. Burying the domestic water line with sufficient slack to prevent future damage to fittings, in a manner as approved by the District. Be sure to avoid backfilling with rocks as this may damage the pipe.
10. Ensuring that no future joining or splicing of the domestic water line from the water line stub to the drainage box occurs.
11. All repairs and leaks beyond the check valve on the owner's property.
12. Ensuring that the curb stop is shut off if the residence will be unoccupied for more than 48 hours.
13. Notifying the administrator (604-414-8448, administrator@savaryshoreswater.ca) of any future alterations required, to ensure approved fittings are used and alteration is approved and inspected by the District Inspector.
