Why are we updating the Plan?

The current Community Plan was completed in 2007, so it's close to 20 years old! And, the Province has issued new legislation that needs to be included in an updated plan.

The Community Plan is a policy document that sets out the future vision, goals and objectives for land use planning on Savary Island.

The Community Plan guides the Regional District, community members and other levels of government to make decisions on land use and themes such as environment, housing, tourism and community well-being.

What does this mean for me?

The Community Plan has an important influence on daily life and the future the community would like to work towards over the next 25 years.

We invite you to have your say!
